

LEARNING RESOURCE CENTER

The University of Eastern Pangasinan is profoundly honored to have Dr. Christine Nabor-Ferrer, the Regional Director of the Commission on Higher Education Region 1 (CHEDRO1), as she pays a visit to the institution on October 23, 2023.

Dr. Evelyn A. Tomboc, the University President, and Dr. Gloria C. Nemedez, the Assistant Vice President for Academic Affairs, together with the Deans and department heads, warmly welcomed Dr. Ferrer. During her visit, Dr. Ferrer also toured the Learning Resource Center (LRC) of the College of Teacher Education (CTE).

The college LRC plays a vital role as the university's Child Development Center. It provides a welcoming space for young learners, especially those in early childhood education. The center is open to preschoolers and young children from municipal daycare centers. By offering a reliable and high-quality learning environment, the LRC supports early childhood education and fosters the cognitive, social, and emotional development of young learners in the community. Additionally, it provides valuable hands-on training opportunities for College of Teacher Education students, enhancing their practical experience in education and child development.
