

The University of Eastern Pangasinan (UEP) has specific graduation/completion targets for students who fall into the bottom 20% of household income groups. For the year 2024, UEP proudly reports that 994 graduates are from the bottom 20% of household income groups.

To ensure the effectiveness of its educational programs and support systems, UEP conducts annual tracer studies. These studies track the progress and outcomes of its graduates, particularly focusing on those from disadvantaged backgrounds. The findings consistently highlight the positive impact of UEP's support on these students' lives.

Many graduates have shared testimonials stating that their education at UEP has significantly improved their quality of life. They attribute their academic and professional successes to the opportunities and resources provided by the university, which have empowered them to overcome financial and social barriers.

By setting and achieving these graduation targets, UEP not only supports the educational aspirations of students from low-income families but also contributes to Sustainable Development Goal 1 (No Poverty). Education is a powerful catalyst for socioeconomic mobility, and UEP's efforts ensure that more individuals can break the cycle of poverty and achieve a better future for themselves and their communities.

Graduation (July 2024)

**Second Chances Can also Bring Success**  
by Dominga A. Dela Rosa and Ma. Theresa R. Marzo

**"Rollercoaster!"**, a metaphoric term used by this precocious graduating student from the College of Business Administration, Mr. Aldren C. Ancheta, as he put into words the journey he had been on as he navigated the four years of his college life.

The halls of the University of Eastern Pangasinan (UEP) were bare witnesses of the countless journeys for every student – some smooth and paved, others a rugged climb. For Mr. Ancheta, a graduating student, the path to this milestone was a rollercoaster ride of challenges, countless doubts, triumphs, and self-discovery. He is a living testament that no matter how difficult the life of a college student is, being bewildered and courageous is the utmost way to persevere.

**CLASS OF 2023**

”  
Others say, in order for you to be successful you have to make sacrifices, for me NO, because success is all about perseverance and determination. It cannot be called a success if you are not happy. Let's remember that Happiness is the best success in life.  
”

**Bill Andrew Rayos: Reaping the fruit of Perseverance**  
by Judy Ann C. Estrada and Wennie Rose C. Valdez.

Life may throw a toll of burdens and challenges at us, but we need to survive and stand firm. Most importantly, dreams and perseverance are powerful weapons in battling our battle.

*"Others say, in order for you to be successful you have to make sacrifices, for me, NO, because success is all about perseverance and determination. It cann... See more*
